

STUDENT VOICES

Students who participate in Student Voices learn how to **ASK** questions about issues they care about in their community and to research those issues on the Internet and in the news media.

They **SPEAK** out about the issues to political candidates and elected officials and by submitting opinion pieces to their newspapers. Using the project website, www.student-voices.org, students comment on the issues by responding to Speak Out questions and click polls.

And students register & **VOTE** to make sure their voices are heard. They become active citizens who are engaged in the political process because they understand how they can make a difference.

ASK ★ SPEAK ★ VOTE
with **STUDENT VOICES**
